English

EXPERIENCE

College projects

Developed a personal portfolio website showcasing my software projects, technical skills, and academic achievements. Implemented responsive design principles to ensure compatibility across various devices and browsers.

TRAINING/CERTIFICATIONS

Word Press, Git & Github

Birat Multiple College / 2023

- Acquired comprehensive knowledge of WordPress platform functionalities.
- Gained proficiency in creating and managing content, customizing themes, and implementing plugins.
- Gained hands-on experience with branching, merging, and resolving conflicts.
- Proficient in using GitHub for collaborative development, including pull requests, code reviews, and issue tracking.

PROJECTS

Amazon Clone

Developed a clone of the Amazon e-commerce platform as a front-end project. This involved replicating the layout and design of the original site using HTML for structure and CSS for styling. The project focused on creating a responsive and user-friendly interface that mimicked the functionality of product listings, a search bar, and user account pages.
